

The mark of
responsible forestry

**Ask for FSC®
certified products**

The attention and the respect for the environment that for long time countersign Cartoflex, have allowed us to reach an important finishing line finalized to the full compatibility of our production according to rigorous environmental, social and economic standards.

The certification of the FSC® Chain of Custody Certification (Coc), got applying the standards of the Forest Stewardship Council®, guarantees that the wood and its by-products (paper and cellulose) employed in the realization of a product originates from FSC® certified forests, managed in base to principles of good forest governance and environmental safeguard (www.fsc.org).

Cartoflex thanks to this International Certification, voluntary and third-party, guarantees and certifies the traceability of the materials employed for the honeycomb production and it shows in a correct, transparent and checked way its own active contribution to the responsible forest management, according to the standards of the Forest Stewardship Council® (www.icila.org).

We have been for a long time reliable suppliers of many principal world groups in the production of furniture, doors and windows and interior design items, that recognize FSC® as international non-governmental organization that promotes a suitable good forest governance for the

environment, socially beneficial and economically viable.
